

CS 182 Project Update

Alexander Moore, Anupa Murali, and Elliot Silva

November 24, 2014

Maximizing Traffic Flow and City Profit

Current Status

- ▶ Implemented City Interface

Current Status

- ▶ Implemented City Interface
- ▶ Fixed number of vehicles (N), edge weights ($\{w_1, \dots, w_m\}$), and probabilities

Current Status

- ▶ Implemented City Interface
- ▶ Fixed number of vehicles (N), edge weights ($\{w_1, \dots, w_m\}$), and probabilities
- ▶ Implemented simple Ford-Fulkerson algorithm

Current Status

- ▶ Implemented City Interface
- ▶ Fixed number of vehicles (N), edge weights ($\{w_1, \dots, w_m\}$), and probabilities
- ▶ Implemented simple Ford-Fulkerson algorithm
- ▶ Implemented local search algorithms
